COMMUNICATION EW POD

ASELSAN's Communication EW POD is a countermeasure system against threat UAVs/drones. The system with its small size and light weight, can easily be integrated to unmanned aerial vehicles.

General Features of the System

- Unique POD Design
- High Output Power
- Detection and Classification Capable Receiver
- Signal Parameters Detection and Recording
- Automated or Operator-Controlled Jamming
- Fast System Response Time
- Swarm Drone Detection and Mitigation with Omnidirectional Antenna
- Modular System Design
- User Friendly Operator Interface
- Multi GNSS Jamming
- Mini/Micro UAV Link/Control/Datalink Jamming
